RECEIVED

APR 30 1976

OFFICE OF
COMMISSIONER

Consolidated Annual Report
ON
**STATE & TERRITORIAL
PUBLIC HEALTH LABORATORIES**
FISCAL YEAR
1975

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
PUBLIC HEALTH SERVICE
CENTER FOR DISEASE CONTROL

CONSOLIDATED ANNUAL REPORT
on State and Territorial
Public Health Laboratories
Fiscal Year 1975
For Administrative Use Only

March 1976

A Collaborative Compilation
by the
U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
Public Health Service
Center for Disease Control
Bureau of Laboratories
Atlanta, Georgia 30333
and the
Association of State and Territorial
Public Health Laboratory Directors

ASSOCIATION OF STATE AND TERRITORIAL
PUBLIC HEALTH LABORATORY DIRECTORS

1975 - 1976

President

Dr. Henry Bauer
Minnesota

President-Elect

Dr. Martin Goldfield
New Jersey

Secretary-Treasurer

Dr. Robert A. Miliner
New Hampshire

Other Members of
Executive Committee

Dr. William W. Ullmann

INTRODUCTION

INTRODUCTION

Diagnostic workload and other varied activities of the laboratories represented by the Association of State and Territorial Public Health Laboratory Directors (ASTPHLD) are described quantitatively in this twelfth Consolidated Annual Report (CAR). Only Pennsylvania did not share its data with the ASTPHLD membership. Thus fifty-one members of the ASTPHLD reported data for the fiscal year 1975, ending June 30, 1975. Florida and New York supplied data for the 1974 calendar year. If some type of activity is not reported in this CAR for a given state, it may mean that a state agency other than the public health laboratory performs that service.

ASTPHLD-member laboratories, whose data is displayed in each table, have been arranged by geographical regions. Several graphs and charts included in this CAR show what type data is contained herein and how it might be displayed in a non-tabular format. It is hoped that these data displays of activity over time can be used to determine progress, or change.

Two major changes from last year's CAR are: (1) reporting of positives has been omitted by concurrence of the ASTPHLD, and (2) the section entitled Special Questions on Diagnostic Workload is not included because no "special questions" were suggested. However, information on screening programs, previously in that section, is included in a table in Section VI, Miscellaneous Information.

Footnotes are placed either at the end of a section or after every few tables, as seems appropriate. The following display explains the use of symbols found in the report.

SYMBOL	MEANING
*	Information was not available for that entry.
-	A report with no activity for that particular item.
X	Represents a "yes" answer.

Definitions of "examinations" and "specimens" were provided in the questionnaire.¹ These definitions are helpful as a guide in collecting and reporting data for this Annual Report, but it may be difficult to apply them in some instances. Possible differences in definitions and in formats used by laboratories for recording and reporting data are problems which should be kept in mind when making comparisons between states. The information contained in each Consolidated Annual Report has, nevertheless, been increasingly more accurate and complete.

¹Since there are many users of the CAR who do not have access to the questionnaire, these definitions are repeated here:

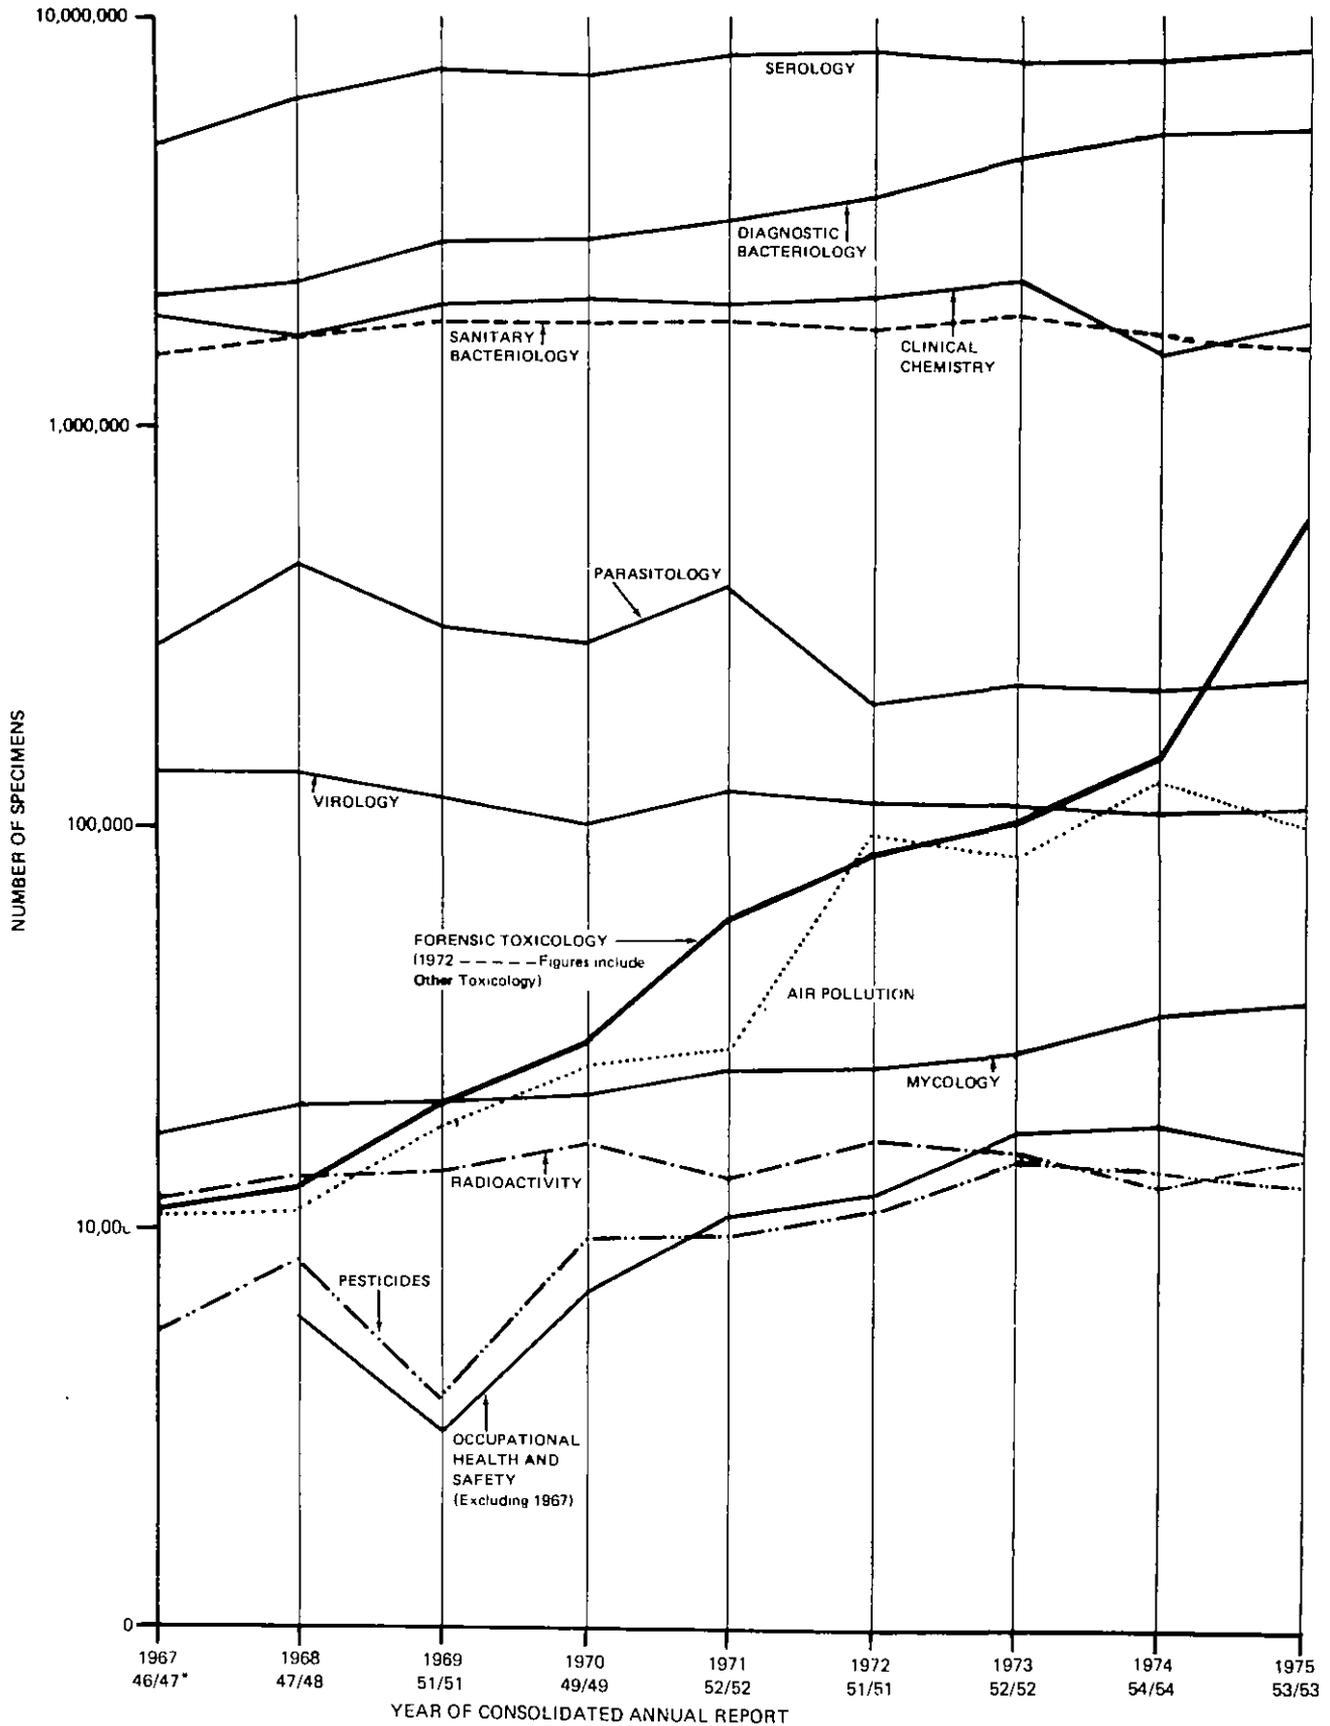

Specimen - A specimen is the material received in the laboratory; for example, this may be a throat swab, tube of blood, bottle of milk, smear on a slide, or a culture for identification. It should be reported in the category for which it was primarily submitted, i.e., "Streptococcus" specimen. If such a specimen is also subjected to testing for diphtheria, it should not be counted as another specimen, since the summation of the specimen columns should be an accurate tally of your total specimen load. However, such examination should be footnoted and referenced to streptococcus specimens.

Examination - This is the study of the specimen. What is done may be a very simple procedure, such as the examination of a bacterial smear which would constitute one complete examination. On the other hand, an examination may be rather complex and involve several cultural procedures followed by serological identification of an organism. The extent of the detail in which examinations will be reported will be indicated by the structure of this report form and accompanying definitions.

SECTION I. FOOTNOTES

- (a) Specimen and examination figures are shown as reported by the States; no estimates were made for figures missing anywhere in the Annual Questionnaire.
- (b) Texas reported all examinations in Relative Value Units.
- (c) Includes EKG, 290 specimens, 290 exams, not shown in further breakdown in workload section.
- (d) Estimated population as of July 1, 1973. Taken from Statistical Abstract of the United States: 1974. U. S. Bureau of the Census. (95th Edition) Washington, D. C., 1974, Pages 12 and 810. Figures for Guam, Puerto Rico, and the Virgin Islands are as of April 1, 1970, based on census count.
- (e) Omitted from calculations.
- (f) Based on filled positions.
- (g) States not included in Table: New York, Pennsylvania, Minnesota, Washington, and Virgin Islands.
- (h) Pennsylvania not included.

TABLES 2-1 -- 2-17. FOOTNOTES

- (a) Smears submitted for N. gonorrhoeae.
- (b) All examinations reported as relative value units.
- (c) Counted with Enteric Cultures.
- (d) Enteric Serogrouping and Enteric Serotyping included together.
- (e) Referred to CDC.
- (f) Included in other categories.
- (g) Included with Miscellaneous, Table 2-17.
- (h) Included with Referred Cultures, Table 2-15.
- (i) GC smears.
- (j) Counted in other culture totals.
- (k) Sterility packs.
- (l) Supplementary tests.
- (m) Food Surveillance, Drug Surveillance, Brucella Vaccines.
- (n) Trichomonas cultures.

TABLES 2-18 - 2-23. FOOTNOTES

- (a) Included in Mycology Cultures.
- (b) Referred to CDC.
- (c) Included with Parasites.
- (d) Forty-nine (49) received unsatisfactory for testing.
- (e) Includes Neutralization Titer - 168.
- (f) Tests for rabies are done at the Diagnostic Laboratory of the Animal Health Division, Department of Livestock.
- (g) Discontinued September 1974, as routine.
- (h) Excluding Rabies, which is in Table 2-20.
- (i) Contract with New Jersey State Department of Health for viral laboratory work (269 specimens sent).
- (j) Viral examinations counted by host system instead of specimen origin. Some animal source counted in with human source.
- (k) Viral isolations referred to the CDC, the UAMS, etc.
- (l) Handled by the Animal Health Division.
- (m) Viral Isolations specimens are not recorded in a way consistent with CAR groupings.
- (n) Throat Washings and Fecal included together.
- (o) Tissue and Other included together.
- (p) Birds and Other included together.
- (q) DETC Isolation, 239 specimens, 578 exams; Monkey, 1 specimen, 18 exams; Gerbil, 1 specimen, 18 exams.
- (r) Ticks.
- (s) Hamster, dog, mice and bats.
- (t) Salmon.

TABLES 2-24 - 2-34. FOOTNOTES

- (a) 4,350 blood specimens and 97 spinal fluid specimens unsatisfactory.
- (b) Includes specimens received and tested for Prenatal Screen Study.
- (c) Includes 99,509 Title XIX specimens; 235,732 specimens in Central Laboratory; 547,653 in Regional Laboratories.
- (d) These examinations were part of a comparative study done between FTA-ABS and MHA-TP tests.
- (e) Includes 142 chancre serum specimens, 142 DFATP exams, not shown in further breakdown.
- (f) Bacterial and Miscellaneous included together.
- (g) Referred to CDC.
- (h) Referred to another laboratory for confirmation.
- (i) Brucellosis and Tularemia included together.
- (j) Specimens included in Viral and Rickettsial Serology specimens.
- (k) Performed as battery.
- (l) Complement Fixation reported as one figure which is shown under Mumps.
- (m) Mumps and Measles included together. Influenza A and B included with Respiratory.
- (n) Includes routine diagnostics, 271,092.
- (o) Influenza A and B included together.
- (p) Routine diagnostics, 107,625; special project, 32,878.

TABLES 2-35 - 2-45. FOOTNOTES

- (a) This total was adjusted to compensate for white cell counts and Hematocrit, which were not counted after August 1974.
- (b) Included with Hemoglobinopathy.
- (c) Other specimens counted under serology.
- (d) Bleeding time, 16; Coagulation time, 17; Cell Indices, 20; Platelet Count, 33; Prothrombin time, 29; Reticulocyte Count, 19; PTT, 3; RBC, 57.
- (e) Includes 443 Rh antibody titers and 35 other antibodies.
- (f) Cellulose acetate electrophoresis.
- (g) 6,368 specimens remaining to be processed and reported in 1976.
- (h) MCH contracted with State pathology laboratory.
- (i) Performed by the University of Oklahoma Health Sciences Center through contract and arrangement with the State Health Department.
- (j) Includes sputum for Cytology, not shown in further breakdown: specimens, 36; examinations, 144.
- (k) Glucose, cholesterol, uric acid, and creatinine included in one figure. Entire program cancelled as of July 1, 1975.
- (l) Includes lead, 36.
- (m) Microscopic - 18,738; Pregnancy tests - 6,335.
- (n) Chemical and microscopic included together.
- (o) Special pesticide study.
- (p) PKU specimens used for galactosemia testing. Examinations include testing for Tay-Sachs.
- (q) Analysis involves specimen X 3, and specimen diluted X 3.
- (r) PKU specimens used.
- (s) Homocystinuria, galactosemia.
- (t) Galactosemia, methionine, histidinemia, and maple syrup urine disease.
- (u) Starting January 5, 1975, these tests performed by Oregon State Health Division, Metabolic Disorders Laboratory by agreement.

TABLES 2-46 - 2-51. FOOTNOTES

- (a) All water specimens/exams included together, regardless of source.
- (b) Does not include drinking water testing performed by local health departments.
- (c) Swimming Pools includes Recreational Water.
- (d) Raw waters, pools and brine make up recreational waters.
- (e) Represents source of Raw Water for treatment and streams.
- (f) Recreational Water included in Raw Water.
- (g) Sources of Raw Water include Recreational Water and Waste Water.
- (h) Source of Raw Water includes Swimming Pools and Recreational Water.
- (i) Drinking Water includes Source of Raw Water and Recreational Water.
- (j) Milk and Cream and Other Dairy Products included together.
- (k) Handled by State Department of Agriculture or local public health laboratories.
- (l) Includes Milk and Cream, Frozen Desserts and Other Dairy Products.
- (m) These tests are done in the Diagnostic Laboratory of the Department of Livestock in Bozeman.
- (n) Handled by State Department of Agriculture.
- (o) Frozen and dispensed drinks.
- (p) Examination of Shellfish and Shellfish-Bearing Waters is performed at the Department of Environmental Protection Laboratory located at Leed's Point, N.J.
- (q) Figure under Food Quality represents all food specimens and exams.
- (r) Included with Raw Waters and Food Quality.
- (s) Food Quality includes Food-Associated Disease Outbreaks and Beverages.
- (t) Food Quality includes Food-Associated Disease Outbreaks.
- (u) Included under Food Quality.
- (v) Included in Drinking Waters.
- (w) Responsibility of Water Resources Laboratory.
- (x) All Stream Pollution samples are tested at the Department of Environmental Control Laboratories.
- (y) Sewage Effluents.
- (z) Included in Raw Waters.
- (aa) Offered by Environmental Health Services, OSDH.

TABLE 2-54. SANITARY CHEMISTRY: MISCELLANEOUS
(Continued)

	Other		Types of Tests
	Specimens	Exams	
New England			
Conn.	12,789	49,866	Clinical thermometers, metals, etc. on solid wastes, oil identification, lead in paint.
Middle Atlantic			
N.J.	337	654	Brains, clams, fish tested for metals.
East North Central			
Ohio	253	253	Sand sieve analysis.
Ill.	17	85	Chloride, hardness, detergent, nitrate, pH, solids, calcium, lead, mercury.
West North Central			
Ia.	126	12,252	*
Mo.	3,047	2,661	Beverage.
South Atlantic			
Md.	2,058	11,603	Beverages, artificial color, borate, cadmium, copper, electrophoresis, fat, spectrophotometer, thermometer calibration, miscellaneous qualitative analysis, filth, lead, net contents, organoleptic, pesticides, thin layer chromatography: petroleum products, pH, insect identification, optical rotation, starch, sulphur, sulfite.
D.C.	57	182	*
S.C.	320	1,097	Shellfish metal analysis, shellfish water metal analysis, and shellfish pesticide analysis.
Fla.	32	320	Bedding.
East South Central			
Ky.	407	407	*
West South Central			
La.	1,609	5,080	Meat, beverages.
Tex.	1,560	*	Meat for Veterinary Public Health.
Mountain			
Mont.	26	218	Soil samples for fluoride, orthophosphate, iron, copper, zinc, cadmium, arsenic, manganese, lead, aluminum, nickel, calcium, magnesium, sodium, chloride, alkalinity, sulfate; bioalgalassays to determine limiting nutrient in eutrophication; ceramic cup tested for lead; paint samples for lead.
Colo.	666	1,738	Heavy metals in food; lead in pottery, foreign materials, drug identifications.
Ariz.	100	100	Identification of foreign material.
Pacific			
Wash.	255	881	Blood lead, heavy metals in ceramicware paints.
Ore.	39	39	Shellfish toxicity.

TABLES 2-52 - 2-56. FOOTNOTES

- (a) All Drinking Water Exams included in one figure, not broken down further.
- (b) Drinking Water includes Swimming Water and Water Pollution. Does not include analyses performed by Department of Pollution Control and in city or county pollution control agencies. Complete Analysis and Partial Analysis included in one total.
- (c) Responsibility of the Bureau of Environmental Health.
- (d) Water and Food Chemistry samples are tested by the Division of Environmental Chemistry, but most Milk Chemistries and Water Pollution Exams are within the jurisdiction of the Department of Pollution Control and Ecology.
- (e) Offered by Environmental Health Services, OSDH.
- (f) Included under Complete and Other Analyses.
- (g) Total for Partial Analysis not broken down by type.
- (h) Responsibility of Agriculture Department.
- (i) Includes chemical procedures carried out on specimens received primarily for microbiology.
- (j) All Sanitary and Environmental Specimens included with Drinking Water specimens.
- (k) Included with Milk and Cream, Table 2-48.
- (l) Included in Sanitary and Environmental Microbiology specimens.
- (m) Responsibility of Water Resources Laboratory.
- (n) Determinations for Dissolved Oxygen performed by Water Pollution Division in the field.
- (o) Additional analyses are performed at branch offices of the Water Quality Bureau.
- (p) Responsibility of Occupational Health Laboratory.
- (q) Varies with type sample.
- (r) Not under laboratory jurisdiction.
- (s) Performed in the Division of Sanitary Engineering, ISBH.
- (t) All Air Pollution Control Activity handled by Department of Environmental Control.
- (u) Continuous sampling and other field work performed by State Air Pollution Board.
- (v) Includes 917 specimens and examinations on pollen counts. Does not include analyses performed by Department of Pollution Control and in city or county pollution control agencies.
- (w) Performed by Department of Pollution Control and Ecology.
- (x) Field testing is performed by, or under the auspices of the Air Quality Bureau, Montana State Department of Health and Environmental Sciences.
- (y) Air Quality laboratory work handled by Department of Environmental Quality.
- (z) Field monitoring systems are under Environmental Health.
- (aa) Performed by Department of Ecology.

TABLES 2-57 - 2-60, FOOTNOTES

- (a) Responsibility of Occupational Health Laboratory.
- (b) Performed in the Bureau of Engineering, ISBH.
- (c) *Biological analyses reported as follows: Environmental Source, Wisconsin, 4,600 exams; South Carolina, 33 exams; Human Source, Montana, 150 exams.*
- (d) All OSH activity in Nebraska has been relegated to the federal agency.
- (e) Some samples such as lead in blood, pesticides, etc., reported in other sections of this report.
- (f) Performed by Occupational Health Section.
- (g) Responsibility of Bureau of Environmental Health.
- (h) Offered by Environmental Health Services, OSDH.
- (i) Function of State Department of Labor.
- (j) All Occupational Health laboratory work done by Department of Occupational Health and Safety.
- (k) Includes Occupational Health and Safety, 6,028 specimens, and Environmental Health and Safety, 214 specimens.
- (l) All laboratory analyses for Radioactivity assigned to the Division of Radiological Health of the State Department of Health.
- (m) Performed by Radiological Health Section.
- (n) Responsibility of Division of Radiological Health.
- (o) Air and Water samples are usually referred to the EPA in Durham, North Carolina and Denver, respectively; Milk samples are sent to the Radiological Laboratory in Las Vegas, Nevada.
- (p) Handled by Field Stations of Bureau of Environmental Health.
- (q) Included in the other categories.
- (r) Includes water, air and milk samples not itemized in these categories.
- (s) All pesticide laboratory activity is handled by the Department of Agriculture laboratories.
- (t) Included in Environmental Source.
- (u) Responsibility of Division of Environmental Chemistry.
- (v) Does not include studies performed in conjunction with EPA (Epidemiological Studies Project).
- (w) Performed by Department of Agriculture.
- (x) Includes samples submitted as part of Tussock Moth Study in Idaho.
- (y) All other analyses performed by the Toxicology Laboratory, Indiana University School of Medicine.
- (z) Responsibility of Division of Environmental Chemistry and Division of Blood Alcohol.
- (aa) Offered by the laboratories of the State Crime Bureau and Board of Unexplained Deaths in selected cases.
- (bb) Blood and Urine included together.
- (cc) Included under Other. Classified by type of specimen and not by type of examination.
- (dd) Performed by state and local law enforcement agencies.
- (ee) Includes sample from north Idaho lead problem area and those submitted in EPSDT screening program.
- (ff) Total controlled substances (screening and identification).
- (gg) Includes Urine Screening for Narcotics and Dangerous Drugs, 83,056 exams.

SECTION III. FOOTNOTES

- (a) Estimated population as of July 1, 1973. Taken from Statistical Abstract of the United States: 1974. U. S. Bureau of the Census. (95th Edition) Washington, D.C., 1974, Pages 12 and 810. Figures for Guam, Puerto Rico, and the Virgin Islands are as of April 1, 1970, based on census count.
- (b) In addition to the total shown, special project funds from federal and other state agencies in the amount of \$1,786,551 provided for salary, support services and supplies for 84 staff members.
- (c) Additional funds over budgeted amount (\$12,664) were provided due to cholera and hepatitis outbreak.
- (d) Not included in state appropriation to the Health Department.
- (e) Personnel Benefits included in Salaries.
- (f) Unusually high because of additional equipment purchased upon occupancy of new building.
- (g) Includes \$69,643 for Biologics.
- (h) Travel included in Supplies.
- (i) \$52,458 worth of capital equipment was purchased through a special fund authorization, not included in approved funding statement.
- (j) Includes indirect cost, \$337,776.
- (k) Travel included with Other Expenditures.
- (l) Includes contractual services, \$14,743.
- (m) Welfare.
- (n) Contracted services, communications, rent, utilities, repairs and maintenance, other.
- (o) Rent.
- (p) Contractual services including postage, telephone, Xerox, printing, rent, utilities, janitorial services and freight charges.
- (q) V.D. Project.
- (r) Paid by W. Va. Department of Welfare for evaluation and certification of laboratories participating in Medicaid.
- (s) Fees collected for drugs, water analysis, alcohol, occupational health, etc., are charged against the appropriation or deposited in the State General Fund. They amount to about \$30,000 a year.
- (t) Collected approximately \$116,584 in laboratory fees. This money reverts to the General Fund, and cannot be used by the Laboratory.
- (u) MCH-MR Hypothyroidism (T4) Screening Project grant from non-recurring Federal funds.

SECTION IV. FOOTNOTES

- (a) Includes Laboratory Directors and Assistant Directors, and Business Managers and Management Officers who spend more than 50 percent of their time on administration and management of laboratory activities.
- (b) Includes Secretaries in the Office of the Director, office services staff, supply and procurement clerks, budget and fiscal clerks and others, other than those covered in supportive services and other categories.
- (c) Those primarily engaged in examining and testing specimens and samples including Laboratory Assistants and Laboratory Helpers who contribute directly to the performance of laboratory tests.
- (d) Includes personnel engaged in preparation of glassware, media, shipping containers, animal handling work, messengers, and supply personnel.
- (e) Includes those who install, repair, or perform preventive maintenance on equipment and maintenance of buildings including housekeeping.
- (f) Director is actually $\frac{1}{2}$ administrative and $\frac{1}{2}$ professional and technical.
- (g) In addition, the laboratory has an average of 5 work-study students from Carroll College at any one time.
- (h) Transferred to Central Support Services.
- (i) Does not include Pennsylvania and Arizona.

SECTION V. FOOTNOTES

- (a) Includes consultative visits.
- (b) Blood bank facilities.
- (c) Handled by Laboratory Licensure and Development Program. Not under lab direction.
- (d) Handled by two laboratorians employed as "Inspectors" by the Hospital and Medical Facilities Division.
- (e) Water and Air Pollution Control Programs were transferred to Environmental Quality Board.
- (f) Includes housing inspections, 2,000 involving 3,125 man-days.
- (g) Includes Traveling Workshops, 13 (31 man-days); other X-ray surveys, 20 (155 man-days).
- (h) City or Local included with County as one total.
- (i) Includes water, 10 investigations; 261 man-days.
- (j) Figures involve 7 clinical laboratory investigators for permit years 7/1/74 - 6/30/75.

SECTION VI

MISCELLANEOUS INFORMATION

TABLE 6-1. STATUS OF PLANNING FOR NEW LABORATORY FACILITIES (a)

	Lab Space Increased or Changed During FY 75	Net Gain in Space During FY 75	Planning for or Construction of New Lab Currently in Progress	If yes, current status of Planning or Construction:	
				Anticipated. Definite need for space. Lab trying to establish needs. Architect has not been retained for planning.	Planning funds have been appropriated.

TABLE 6-2. CHANGES DURING THE REPORTING YEAR AFFECTING RELATIONSHIPS OF LABORATORY WITH OTHER UNITS OF GOVERNMENT (a)

New England Vt.	Health Dept. reorganization in process.
West North Central Mo.	Public Water Supply Program changed from Division of Health to Department of Natural Resources, and State lab is giving support through Inter-Departmental agreement.
Kans.	Division of Laboratories was renamed Office of Laboratories and Research, and answers directly to Secretary of Health and Environment.
South Atlantic S.C.	Water bacteriology, water chemistry, and shellfish water examinations transferred from Bureau of Laboratories to Bureau of Environmental Quality Control, which is also in Dept. of Health and Environmental Control.
West South Central La.	Governmental Ethics Commission.

TABLE 6-3. ENACTMENT OF NEW LABORATORY LICENSURE LAWS OR LABORATORY PERSONNEL LICENSURE LAWS (a)

	Effective Date of Law	Remarks
New England R.I.	5/16/75	Covers independent clinical labs.
Middle Atlantic N.J.	8/1/75	New law covers following labs and employees: independent clinical, hospital, group practice, doctors' office, local P.H., state P.H.; supervisors, technologists, technicians.
East North Central Ill.	1/1/76	Amendment to Clinical Laboratory Licensure Act to cover doctors' office labs.
South Atlantic Ga.	1975	The 1970 licensure law was amended in 1975: (1) to delete exemption for clinical laboratories operated solely for premarital tests; (2) to increase from two to three the number of laboratories which one licensed director can direct at any one time; and (3) to provide for acceptance by the State, on an alternate year basis, of certain national inspection programs when the laboratory has been found to have met all requirements on the previous year's inspection by state personnel.
Mountain Utah		The effective dates of rules and regulations range from 1969 to 1975 and cover: independent clinical labs, hospital labs, non-clinical labs, directors, supervisors, technologists and technicians. Laboratories seek certification voluntarily with two exceptions. Certification is mandatory for laboratories wishing to perform (1) premarital-prenatal STS and (2) PKU. Technologist qualification requirements must be met as a condition for laboratory certification.
Pacific Hawaii	2/12/75	New law covers following labs and employees: independent clinical, hospital, group practice, local P.H., state P.H., non-clinical, blood banks; directors, supervisors, technologists, technicians.
P.R.	11/20/75	New law covers following labs and employees: independent clinical, hospital, group practice, doctors' office, local P.H., state P.H., blood banks; directors, supervisors, technologists, technicians.

TABLE 6-4. SCREENING PROGRAMS (a)

List of Programs	
New England	
Me.	Rubella, Phenylketonuria (PKU), blood lead.
N.H.	PKU, diabetes.
Mass.	PKU, Maple Syrup Urine Disease (MSUD), homocystinuria, tyrosinosis, galactosemia, maternal PKU, galactokinase deficiency, argininosuccinic acidemia, hyperglycinemia and many other metabolic disorders; childhood lead poisoning prevention program.
R.I.	PKU, lead, sickle cell anemia, gonorrhea, VD.
Conn.	Tay-Sachs Disease, Cooley's anemia, sickle cell anemia, diabetes, PKU, galactosemia.
Middle Atlantic	
N.Y.	Venereal Diseases, PKU, branched chain ketonuria, adenosine deaminase, galactosemia, homocystinuria, histidinemia, homozygous, sickle cell disease.
N.J.	PKU.
East North Central	
Ohio	PKU, homocystinuria, galactosemia.
Ill.	Blood lead screening.
Wisc.	Multiphasic screening program; lead screening program.
West North Central	
Minn.	PKU, syphilis (AFTA) for late latent syphilis.
Ia.	PKU, childhood lead poisoning.
Mo.	PKU, sickle cell, rubella, diabetes.
N.D.	Mandatory PKU.
Nebr.	PKU, central blood lead screening.
Kans.	PKU.
South Atlantic	
Del.	PKU, gonorrhea, syphilis, sickle cell, rubella.
Md.	PKU, galactosemia, histidinemia, MSUD, methionine.
D.C.	Sickle cell anemia, lead, glucose/BUN, cholesterol, hemoglobinopathies, syphilis, GC; cervical cancer.
Va.	PKU, glucose, rubella, drug rehabilitation.
W.Va.	GC, PKU, cytology, sickle cell.
N.C.	PKU, blood lead, cervical cancer, sickle cell and related hemoglobinopathies, hypertension, chronic disease detection, diabetes.
S.C.	PKU, hemoglobinopathies, blood lead, gonorrhea, parasitology and multiphasic health.
Fla.	PKU, hemoglobinopathies, coronary heart multiphasic screening, lead poisoning.
East South Central	
Ky.	PKU, childhood lead poisoning.
Tenn.	PKU, hemoglobinopathy.
Ala.	PKU, abnormal Hgb.
West South Central	
Ark.	PKU, sickle cell, AFDC.
La.	PKU, sickle cell, GC, group A beta hemolytic streptococcus.
Okla.	PKU, blood chemistry (glucose, cholesterol), hemoglobinopathies, gonorrhea.
Tex.	PKU, Early Periodic Screening, Diagnosis and Treatment (EPSDT), diabetes, chronic disease.
Mountain	
Mont.	Contract with Oregon to screen newborn for phenylalanine, leucine, methionine, tyrosine, galactose, and thyroid deficiency (T4). Minor activity in EPSDT.
Ida.	PKU.
Colo.	PKU.
N.M.	PKU, blood lead.
Ariz.	Sickle cell.
Nev.	PKU.
Pacific	
Wash.	PKU, sickle cell.
Ore.	Homocystinuria, galactosemia, tyrosinemia, PKU, hypothyroidism, MSUD, toxoplasmosis, syphilis serology, rubella.
Alaska	PKU, rubella.

TABLE 6-5. CHARGES FOR LABORATORY SERVICES (a)

Laboratory Services with a Fee		Charge per Unit
New England		
Me.	Water kit	\$ 2.00
	Public water supplies	Analysis cost charge
	Chemistry-Toxicology	10.00/hr.
	Toy stuffing analysis	5.00/hr.
Mass.	Certificate for laboratories approved by Laboratory Program (no fee for State, City or Municipal labs)	5.00/certificate
Conn.	Throat culture kits	0.35
	FA reagent (Group A strep.)	20.00/ml.
	VDRL antigen	3.00/5.0 ml.
East North Central		
Ind.	Private wells	4.50 ea.
	Public water (commercial)	10.00/yr.
	Premarital blood test	2.50 ea.
Wisc.	Rabies and water bacteriology	1.00 ea.
	Handling fee for all other tests (local units of government exempt)	1.50
West North Central		
Ia.	Total coliform - drinking water	2.00/sample
	Iron bacteria, iron, pH, hardness, or nitrate - drinking water	2.00/parameter
	Drug screening	2.50/urine specimen
	Effluent Quality Analysis Program	5.00/sample
	Milk, SPC	2.00/sample
	Various chemical and physical water quality parameters	Varies from \$5.00 - \$100.00/sample
Nebr.	Water bacteriology (private)	3.00/test
	Water chemistry (private)	2.00 to 15.00 (individual or routine set)
	Mailing containers	1.00/unit (4 to 10 items ea.)
	Drug screen urinalysis	1.80 (contract); 8.00(individual)
Kans.	Water bacteriology	2.00/sample
	Water chemistry	7.50/sample (partial analysis)
	Water chemistry	23.00/sample (complete analysis)
South Atlantic		
Va.	(Some fees charged for special services or contract work, but not for routine services.)	
W.Va.	Evaluation and certification of laboratories participating in Medicaid	5,000.00 paid by W. Va. Dept. of Welfare
N.C.	Private water analysis	5.00/bacteriological
	Private water analysis	5.00/chemical analysis
	Sale of specimen collection (outfits and biologicals)	Varies with type
	Fees for examination of public water supplies	Sliding scale - \$15.00 - \$64.00, depending on gross sales of number served.
S.C.	STS	1.00
	RH Factor	2.00
	Febrile agglutination	3.00
	FTA-ABS	3.00
	Rubella	2.00
	Infectious Mono	3.00
	Toxoplasmosis	3.00
	Drug qualitative	3.00
	Drug quantitative	8.00
	Chromosome study	100.00

TABLE 6-5. CHARGES FOR LABORATORY SERVICES (a)
(Continued)

	Laboratory Services with a Fee	Charge per Unit
Fla.	Urine screening for dangerous drugs (if qualitative test for alcohol included)	\$ 2.00/specimen + .50/specimen
East South Central Ky.	Laboratory services for Occupational Health	By contract - Occupational Health Dept. of Natural Resources (Grant)
Miss.	Group A streptococci	1.00/specimen (other than Health Dept. clinics)
West South Central Ark.	Premarital serology certificate	1.00
Mountain Mont.	Water bacteriology (Total coliform)	4.00
	MPN	10.00
	Fecal streptococci	6.00
	Fecal coliform	6.00
	Six-dilution plate count - raw water	7.00
	Four-dilution plate count - drinking water	5.00
	Standard chemical - water	15.00
	Annual fee for testing public drinking water supplies	170.00 - 1200.00
	EPA standard chemical - water	70.00
	Individual chemicals	2.00
	Metals by Atomic Absorption Spectropho- metry (AAS) (except As,Hg,Se)	8.00 (one component per sample) 3.00 (each add'l component)
	As, Hg, Se by AAS	10.00 (one component per sample) 5.00 (each add'l component)
	Organic solvents by GC	25.00 (one component per sample)
	Free silica	60.00 per batch of 5 or less samples
	Coal tar pitch volatiles (benzene soluble material)	40.00 per batch of 4 or less samples
	Sulfur analysis of coal samples	25.00 per sample
	Pesticide determination (quant. and qual.)	35.00 minimum
	Screening of urine for abused substances	6.00
	Determination of alcohol content of blood or urine	6.00
	Bacteriological analysis of samples of food	15.80
	Asbestos counting	35.00
	Infant screening for inborn errors of metabolism	4.00/specimen
Ida.		(Prices effective 7/1/75) Amounts based on: 1-10 tests/month 11-49 tests/month over 50 tests/month(lowest cost)
	<u>Water analyses:</u>	
	Purity tests (bacteriological quality)	3.00 - 5.00 ea.
	MPN (total coliform, fecal coliform or fecal strep.)	5.50 - 8.00 ea.
	BOD	5.50 - 8.00 ea.
	COD	3.50 - 5.50 ea.
	TOC	20.00
	<u>Complete chemical analysis</u>	
	Potable tests	90.00 ea. (1/month) 75.00 ea. (2 or more/month)
	Surface water	60.00 ea. (1/month) 50.00 ea. (2 or more/month)
	Waste samples	80.00 ea. (1/month) 65.00 ea. (2 or more/month)
	Non-point source samples	65.00 ea. (1/month) 55.00 ea. (2 or more/month)

TABLE 6-5. CHARGES FOR LABORATORY SERVICES (a)
(Continued)

Laboratory Services with a Fee	Charge per Unit
<u>Individual water chemistry tests</u>	\$ 3.50 - 4.50 ea.
<u>Elemental Analyses by Atomic Absorption</u>	
<u>Spectrophotometry</u>	3.50 - 4.50
pH, color, turbidity, settleable solids	1.50 ea.
Phenols	5.50
Kjeldahl nitrogens	8.50
Total phosphorus	8.50
Pesticide residue analysis	60.00
Rad health (gross alpha-beta)	7.50
Surfactants	5.00
Cyanide	7.50
<u>Mercury</u> (tissue, urine, foods, etc.)	10.00
<u>Lead</u> (tissue, urine, foods, etc.)	10.00
<u>Miscellaneous tests</u>	
Cholinesterase enzyme assay	10.00
Urine drug screen	5.00
Syphilis serology, rubella serology	4.00
Cytogenetic analysis	30.00
Analysis of food sample for salmonella	8.50
Analysis of food sample for coliform	6.00
Ariz.	(Prices effective 1/1/74)
Premarital syphilis serology	2.00 per specimen (no charge for prenatal specimens)
Fungal serology	2.00 per specimen
Toxoplasmosis (IHA)	2.00 per specimen
Bacterial serology	2.00 per specimen
Viral serology (CF or HI)	10.00 per specimen (or 2.00 per antigen if 4 or less)
Rubella	2.00 per specimen
Parasitology (intestinal or blood)	5.00
Bacteriology culture (includes enteric, gonococcus, tuberculosis, anaerobic, throat, blood and spinal fluid	5.00 per culture
(Routine throat cultures for Streptococcus identification and grouping not available)	
Mycology (microscopic and culture)	5.00
Virology (isolation and ID)	10.00
(Rabies - no charge)	
Environmental Health:	
<u>Water</u>	
Total coliform	0.75
Routine chemistry	22.00
Individual chemistry	1.00
<u>Milk</u>	
Routine exams (SPC, coliform, etc.)	10.00
Pesticide determination	10.00
Pacific	
Ore.	
Metabolic disorders	1.50/specimen
Water bacteriology on samples from U.S. Forest Service Ranger Stations	2.00/sample
Alaska	
Chemical analysis of water for Federal agencies	35.00/routine complete; 3.00 - 10.00 per special test

TABLE 6-5. CHARGES FOR LABORATORY SERVICES (a)
(Continued)

	Estimate of Total Annual Receipts from Charges	Disposition of Funds
New England		
Me.	\$ 137,000	Private water receipts go in general revenue fund; Chemistry-toxicology receipts go in dedicated revenue fund.
Mass.	1,400	General funds of the Commonwealth.
Conn.	21,600	General fund.
East North Central		
Ind.	31,511	Indiana State general funds.
Wisc.	685,000	Salaries and supplies.
West North Central		
Ia.	359,905	Rebudgeted back into laboratory general expense operating account.
Nebr.	11,356	"Cash fund" dedicated to lab budget.
Kans.	86,471	General funds for use by laboratory.
South Atlantic		
W.Va.	5,000	Buy materials and equipment.
N.C.	202,041	State appropriation reduced by amount of estimated receipts; budget revised to utilize excess.
S.C.	156,153	Support laboratory activities.
Fla.	20,000	Partial payment of salaries and expenses for urine screening program.
East South Central		
Ky.	64,000	Personnel and laboratory operations.
Miss.	50,000	Salaries and supplies for laboratory.
West South Central		
Ark.	40,000	By law, used toward payment of building bonds.
Mountain		
Mont.	30,000	General fund for drinking water microbiology. Others are credited directly to the laboratory budget.
Ida.	79,000	Laboratory current expense category (receipts included in lab budget).
Ariz.	120,000	General fund - not used by laboratory.
Pacific		
Ore.	12,961	Miscellaneous receipts to support metabolic disease program; miscellaneous receipts.
Alaska	3,500	Returned to laboratory for reimbursement for supplies and materials.

TABLE 6-6. GRANTS, CONTRACTS, OR SPECIAL SERVICE AGREEMENTS
WITH OTHER DEPARTMENTS OR AGENCIES (PRIVATE, FEDERAL, STATE, OR LOCAL)

	Program (a)	Service	Man-years	Costs

	Program (a)	Service	Man-Years	Costs
	Oncogenic Virus Studies - Research Contract, NIH National Cancer Institute	Conduct research on known or potential cancer viruses and their possible role in human cancer	10	\$245,818
	Immunology and Epidemi- ology of Viral Diseases - Research Grant, NIH, NIAID	Control research on diagnostic methods, proper- ties of viral agents, and their immunology and epidemiology	12	196,929
	Electron Microscopic Studies of Selected Viral Diseases - Research Grant, NIH, NIAID	Conduct research on develop- ment and application of electron microscopy for identification and characteri- zation of viruses	2	44,791
	Studies of Influenza and Other Viral Respiratory Diseases - Research Contract, U.S. Army, Medical Dept.	Conduct research and preven- tion of influenza, evaluation of vaccines and causative agents of respiratory infec- tions in military recruits	2	48,876
	Gonorrhea Control Project	Establish statewide laboratory capabilities to process gonorrhea specimens using cultural methods that will assure reliable and accurate results. Activities include: proficiency testing with simu- lated specimens, confirmation of isolates from diagnostic specimens, training, consulta- tion, and quality control checking of media, reagents and methodology	8.5	109,928
	Berkeley City Health Dept. Laboratory Services Contract (Local)	Provide laboratory services, chemical and microbiological examinations for: communi- cable diseases, sanitary quality of water, milk and dairy products	4	79,886
Alaska	Virology - Rabies Contract with CDC	Rabies surveillance	2	43,700
	Tuberculosis Control (Div. of Indian Health)	TB diagnostic	1.5	16,700
	Veneral Disease Control	GC culture services	3	32,000
Guam	TB Control	Culture	0.5	-

SECTION VI. FOOTNOTES

- (a) This table omits states having no information to report on this subject.
- (b) Information in table pertains to Central Laboratory only. Branch laboratory information: The 1974 legislature approved the transfer of \$89,000 which was previously approved for construction of a branch laboratory in Idaho Falls to Pocatello. This will be a part of a new local health department in that city. Final plans have been approved. There has been some delay in obtaining Federal approval (problem of lease of land). It is hoped that this will be put out on bid by December 1975. The laboratory will have about 2,170 square feet available.
- (c) Completed January 1975.
- (d) The Northern Regional Laboratory is moving from space in the Court House to the Arctic Health Research Center Building on the University of Alaska Campus in Fairbanks. Space is being remodeled and will result in an additional 1,000 square feet net space. Figures shown in Gross and Net Square Feet columns represent space to be occupied by the Laboratory, not entire building.
- (e) Construction consists of renovation of existing hospital structure (built in 1954) into laboratory space utilizing all of the third floor and approximately one-half of the second floor.
- (f) This figure represents portion assigned to the Laboratory. Gross square feet of building is 67,000.
- (g) Planned building will be an addition, but will replace existing space; new second story and 2-storied additional wing.
