

Review of Current and Future Diagnostics for Tick-borne Borrelioses

JUNE 1, 2016 • 1:00-2:00PM EDT • ATLANTA, GA

**Martin Schriefer, Ph.D.,
Chief, Diagnostic and
Reference Laboratory,
DVBD, NCEZID, CDC**

This basic-level webinar will cover laboratory test methods for tick-borne Borrelioses. Nationally recommended diagnostics for Lyme disease, including performance, strengths, weaknesses, and complexities will be reviewed. The webinar will also cover possible future directions, and status of tests for recently described pathogenic *Borrelia* species.

FREE WEBINAR

REGISTRATION DEADLINE IS MAY 25, 2016

- Locate the course online under Live Webinars at www.cdc.gov/labtraining.
- Follow the link to register for the course in TRAIN.
- Registration deadline is one week prior to each of the webinar.
- Once you have registered, you will receive a detailed confirmation letter by email.
- This webinar will be archived on TRAIN approximately 3 weeks after the live event.
- This webinar has 1000 seats available on a first come first served basis.
- If you have difficulty with the online registration process, please email labtraining@cdc.gov.

CEUs:

The Centers for Disease Control and Prevention, Laboratory Training and Services Branch, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar is approved for 1.0 hour of P.A.C.E.® credit, and has been approved for 1.0 contact hours in the General (Microbiology/ Mycology/ Parasitology) category for Florida Laboratory Licensees.

P.A.C.E.® Course#: 288-014-16 Florida Course#: 20-553824

Sponsored by the National Laboratory Training Network (NLTN). The National Laboratory Training Network is a Training System Sponsored by the Association of Public Health Laboratories (APHL) and The Centers for Disease Control and Prevention (CDC) www.aphl.org/training/nltn

Funding for this training was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written training materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government. This project is funded 100% by Federal funds. APHL received \$1.8 million this year for NLTN program support.

Objectives:

At the conclusion of this program, the participant will be able to:

- Describe performance characteristics of laboratory test methods used to identify Lyme disease infection.
- Summarize the status of newly identified *Borrelia* species pathogens and laboratory test methods used to detect them.

Target Audience:

This basic-level webinar is of interest to public health laboratorians.

Access Requirements

To participate in this webinar, you will need a computer with internet access and speakers or a headphone to hear the audio. To test your system, visit https://admin.acrobat.com/common/help/en/support/meeting_test.htm.
